Secretary Gray Applauds Trump Administration's "Unleashing American Energy" Order and Revision of BLM's Rock Springs RMP

CHEYENNE, WY – In response to the Trump Administration's Executive Order 14154 "Unleashing American Energy" directing the removal of impediments imposed on the development and use of America's energy and natural resources by the Biden Administration, and Interior Secretarial Order No. 3418 directing the Interior Department to review and revise the Rock Springs Resource Management Plan to accomplish the goals of President Trump's Executive Order, Secretary Gray issued a statement expressing his strong support of the orders and again advocating for the reversal of the Rock Springs RMP.

"I am totally supportive that the Trump Administration is beginning the process to protect Wyoming's core industries by reversing the Rock Springs RMP," Secretary Gray said in a statement. "It is wonderful to see the Trump Administration's action to restore Southwestern Wyoming's core industries and begin the process of reversing the Rock Springs RMP to unleash America, and Wyoming's, core industries."
