Secretary Gray Fully Supports President Trump Calling National Guard to Stop Los Angeles Riots, Asks Governor Mark Gordon to fully support the President

CHEYENNE, WY – Secretary of State Chuck Gray has released a statement fully supporting President Trump sending the National Guard to Los Angeles.

“I’m in full support of President Trump activating the National Guard to protect the American people by stopping the dangerous riots that have spread across Los Angeles. Why has Governor Mark Gordon been totally silent on this issue? In particular, I’m deeply troubled that the Gordon Administration, through the Wyoming Attorney General’s office, which serves at the pleasure of the Governor, did **NOT** sign a letter signed by 25 other Republican Attorney Generals supporting President Trump. We need to fully support President Trump and they should have signed that letter signed by 25 other Republican Attorneys General.”
