Secretary Gray Expresses Strong Disagreement with Massachusetts Federal Court Injunction Blocking President Trump's Election Integrity Executive Order

CHEYENNE, WY – In response to a ruling by Judge Denise Casper of the United States District Court, District of Massachusetts granting a motion for preliminary injunction to block portions of President Trump's Executive Order Preserving and Protecting the Integrity of American Elections that requires the Election Assistance Commission to implement documentary proof of United States citizenship for voter registration on the Federal Voter Registration Form, Secretary Gray issued the following statement:

"This liberal, activist ruling from a Massachusetts federal judge is wrong. I support President Trump's Executive Order 100%--it is so important for advancing election integrity. Requiring proof of citizenship for registering to vote and President Trump's entire executive order is common sense and totally consistent with the United States Constitution and statute. We have been working and will continue to work to implement these common sense election integrity measures put forward by President Trump here in Wyoming."
