Secretary Gray Statement Concerning Additional Complaints Pertaining to Weston County Clerk

CHEYENNE, WY – In response to additional complaints from qualified electors of Weston County submitted to Governor Mark Gordon on October 20th alleging acts of misconduct or malfeasance by the Weston County Clerk and requesting removal from office, Wyoming Secretary of State Chuck Gray made the following statement:

“At the September 29th hearing on her conduct, the Weston County Clerk Becky Hadlock defied a subpoena requesting her to appear before the committee. On top of that, the hearing discussed Clerk Hadlock's false post-election audit after the clerk's original ballot misalignment error was identified. Governor Gordon did not even consider the false post-election audit in his original consideration of the issue. Therefore, I hope the Governor addresses the failure to respond to the subpoena and also finally addresses the false post-election audit in his review of these complaints.”
