Senate Majority Leader John Thune
United States Senate SD-511
Washington, DC 20510

Dear Majority Leader John Thune:

As the chief election officials of our respective states, we write today in complete and total support of the Safeguard American Voter Eligibility (SAVE) America Act. With such overwhelming support of the SAVE America Act by Congress and the American People, and its privileged status, a talking filibuster must be enforced for the SAVE America Act. It should not be bogged down in procedural limbo.

The SAVE America Act provides baseline protections that are key to implementing President Trump's election integrity agenda, such as Voter ID and documentary proof of citizenship (DPOC) requirements. Documentary proof of citizenship for registering to vote is pivotal for election security, and should be uniformly enacted to ensure only United States citizens are voting in federal elections.

Both of our states have passed and implemented the reforms in the SAVE America Act, including Voter ID and forms of DPOC. In fact, Wyoming became the first state in the nation to pass an ironclad proof of citizenship requirement for all races in 2025. Indiana passed a form of DPOC in 2025 as well. Indiana was the first state in the nation to pass a Voter ID law, which was later upheld by the U.S. Supreme Court. Wyoming passed Voter ID in 2021. While both of our states have faced attacks and lawfare from the radical left, we know from experience that the common-sense Voter ID and DPOC requirements found in the SAVE America Act easily withstand legal challenge. And because federal elections affect each state across the union, the SAVE America Act's uniform protections ensure election integrity across the United States, without a patchwork of state regulation varying in levels of protection dependent on other states' varying commitment to secure elections.

Election integrity and security is crucial to keeping our republic. This is why the protections offered by the SAVE Act are so important. In both Wyoming, and Indiana, we have proven these common-sense election reforms work, and must be successfully implemented to safeguard our elections, and our way of life. Therefore, we urge you to use the Senate's existing rules, to enforce a talking filibuster for the SAVE America Act, and force the radical democrats

to explain why they would oppose these common-sense election integrity reforms. The American people demand nothing less.

Sincerely,

Chuck Gray
Wyoming Secretary of State

Diego Morales
Indiana Secretary of State
