Secretary Gray Releases Statement Applauding President Trump's State of the Union Address

CHEYENNE, WY – Wyoming Secretary of State Chuck Gray has released the following statement applauding President Trump's State of the Union Address:

"President Trump's State of the Union was an absolute masterclass triumph. President Trump discussed the tremendous accomplishments of his administration in unleashing American innovation and prosperity with an America First agenda.

He has brought our economy roaring back. As we approach our 250th anniversary, President Trump also discussed the courage and perseverance of the American people with tremendous introductions of American patriots.

And when the radical Left refused to stand and acknowledge that American citizens should come first, the truth was laid bare for all to see. The radical Left is out of control and outrageously wrong. But the silent majority will continue to stand for common sense policy that puts America First!"
